

Password Self-Service User Guide V1.0

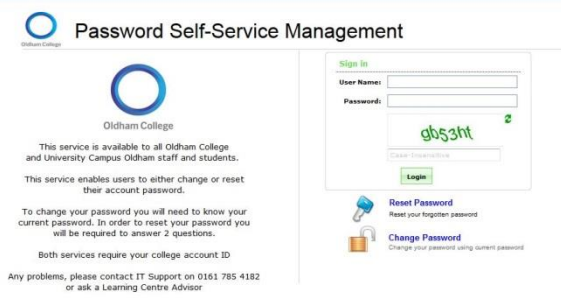

The password self-service management service is a tool that allows students and staff to change their Oldham College / UCO network passwords online either on campus or externally. This service is available both from within campus and externally.

STEP 1 – OPENING THE PASSWORD RESET SITE:

- From a Campus computer, click on Reset Password at the login prompt.
- From a Campus computer, open a browser and go to the link below <https://pwdreset.oldham.ac.uk/showLogin.cc>
- Or, from an external computer you can access the password reset site via the Oldham Gateway Service here <http://gateway.oldham.ac.uk/> and clicking the following section.

This will direct you to the page below

Account Registration:

All accounts are registered automatically with the Password Reset system.

All users are registered with their relevant details which are held on the College & University systems.

STEP 2 – USING THE FEATURES:

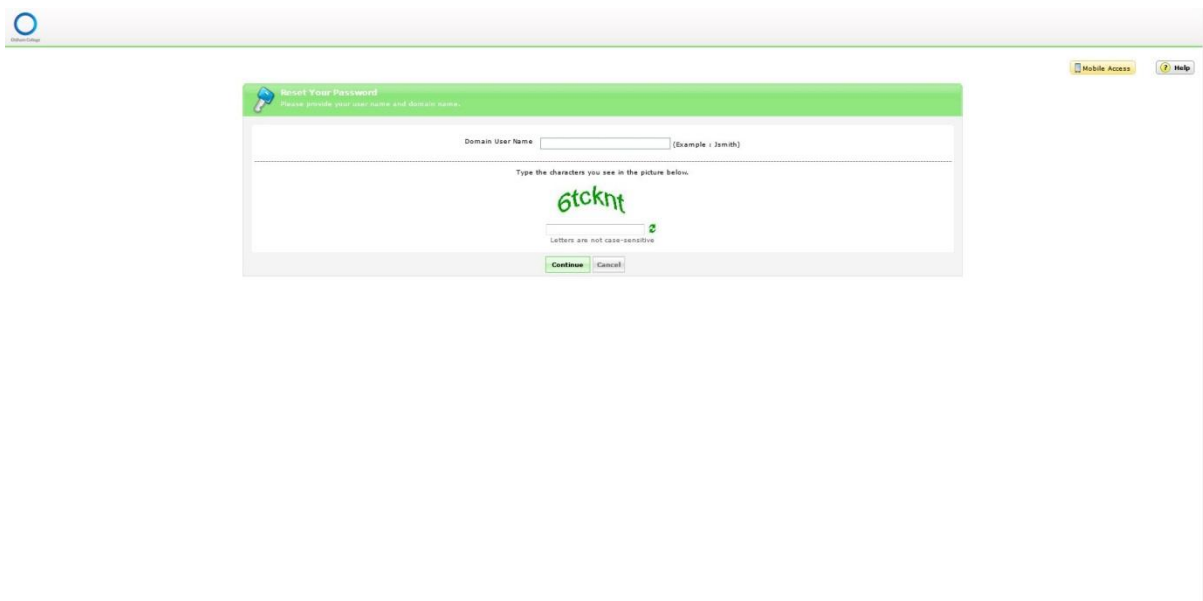

- Access the service as previously described in **STEP 1**

Reset Your Password

You can **reset** your password if you have forgotten it using your answers to the security questions.

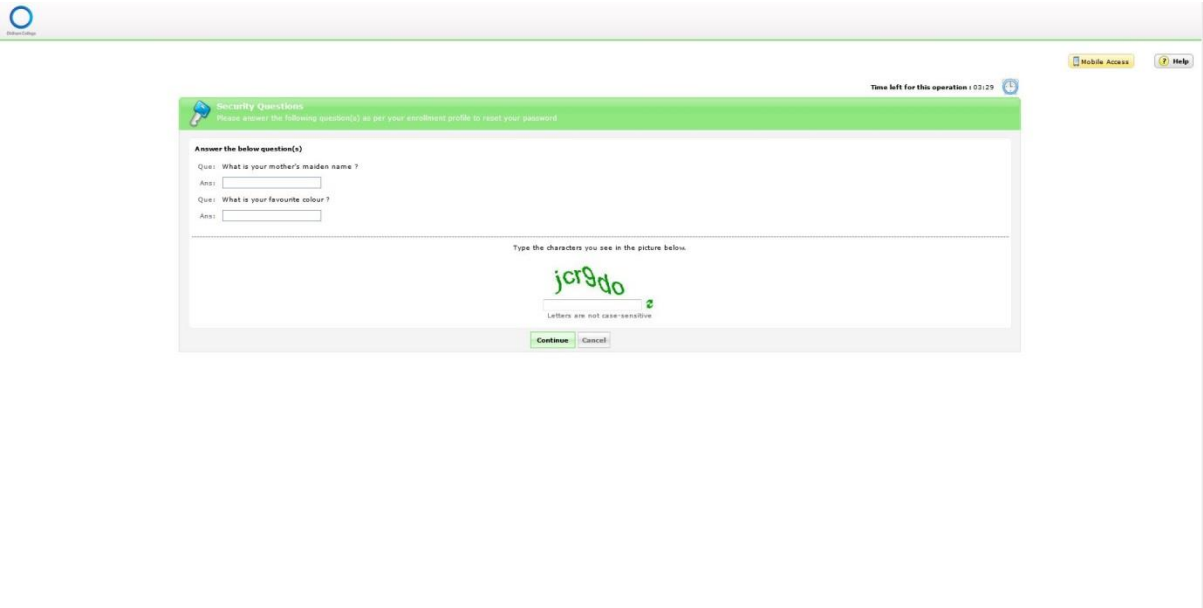

Click on the Reset Password option.

You will be prompted to enter your domain username and the Captcha details at the screen below.

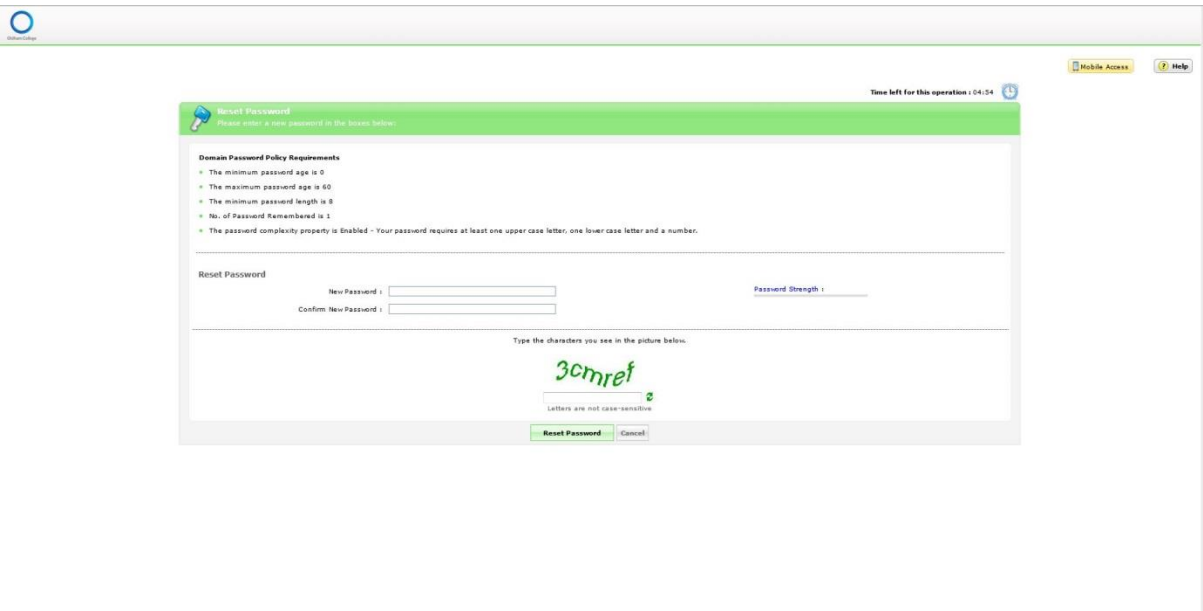

The screenshot shows a web browser window with a white background. In the top left corner, there is a small blue circular logo. In the top right corner, there are two buttons: 'Mobile Access' and 'Help'. The main content area features a green header bar with the text 'Reset Your Password' and a sub-header 'Please provide your user name and domain name.' Below the header, there is a text input field labeled 'Domain User Name' with a placeholder '(Example : Jamsh)'. Underneath the input field, there is a Captcha image showing the word '6tcknt' in a green, stylized font. Below the Captcha, there is a small green icon and the text 'Letters are not case-sensitive'. At the bottom of the form, there are two buttons: 'Continue' and 'Cancel'.

Answer the 2 security questions and complete the Captcha code at the screen below.

Reset your password at the screen below.

An email will be sent to your Oldham.ac.uk account to indicate that your account password has been reset.

Change Your Password

You can **change** your password using your old password, for instance if you think your password has become known to someone else.

Enter your domain username, password and the Captcha details and click on the Login Option.

The following page will then be provided to allow you to change your password.

Adding Additional Security Questions:

If you wish to add additional security questions, login to the system as per the Change your Password instructions and click on the Enrollment tab which will provide the screen below where you can add additional questions & answers. Each answer needs to be typed in twice in order to avoid any errors. Once complete, click on the Update button at the bottom of the screen.
